Why us ?

World 1st First **Multifunctional** **100% Money Back Plan**

The **NS-NEW AGE** refers to the collection of markets and exchanges where regular activities of buying, selling, and issuance of shares of publicly-held companies take place. Such financial activities are conducted through institutionalized formal exchanges or over-the-counter (OTC) marketplaces which operate under a defined set of regulations. There can be multiple stock trading venues in a “**NS NEW AGE**” or a region which allow transactions in stocks and other forms of securities.

What we do ?

Stock Trading

Most of the trading in the Indian stock market takes place on its two stock exchanges: the Bombay Stock Exchange (BSE) and the National Stock Exchange (NSE).

The BSE has been in existence since 1875. The NSE, on the other hand, was founded in 1992 and started trading in 1994. However, both exchanges follow the same trading mechanism, trading hours, and settlement process.

Bombay Stock Exchange (BSE) :

The Bombay Stock Exchange (BSE) is the first and largest securities market in India and was established in 1875 as the Native Share and Stock Brokers' Association. Based in Mumbai, India, the BSE lists close to 6,000 companies and is one of the largest exchanges in the world, along with the New York Stock Exchange (NYSE), Nasdaq, London Stock Exchange Group, Japan Exchange Group, and Shanghai Stock Exchange.

National Stock Exchange (NSE) :

The National Stock Exchange of India Limited (NSE) is India's largest financial market. Incorporated in 1992, the NSE has developed into a sophisticated, electronic market, which ranked fourth in the world by equity trading volume. Trading commenced in 1994 with the launch of the wholesale debt market and a cash market segment shortly thereafter. KEY TAKEAWAYS

Market Indexes

The two prominent Indian market indexes are Sensex and Nifty. Sensex is the oldest market index for equities; it includes shares of 30 firms listed on the BSE, which represent about 47% of the index's free-float market capitalization.⁷ It was created in 1986 and provides time series data from April 1979, onward.

Market Regulation

The overall responsibility of development, regulation, and supervision of the stock market rests with the Securities and Exchange Board of India (SEBI), which was formed in 1992 as an independent authority. Since then, SEBI has consistently tried to lay down market rules in line with the best market practices. It enjoys vast powers of imposing penalties on market participants, in case of a breach.
